WP	Work Plan

Executive Summary

LIFE Nepal has been implementing “The Complete Safe Motherhood Programme” with the technical and financial support from UNFPA in seven Palikas i.e., Gaur, Gujra and Yamunamai of Rautahat; Malangwa, Godaita, and Kaudena in Salrahi and Janakpurdham in Dhanusha of Madhesh Province, Nepal. This programme is contributing four major outcomes such as i) Sexual and reproductive health, ii) Adolescents and youth, iii) Gender equality and empowerment of women, and iv.) Population dynamics of UNFPA.

Contributing to the above mentioned outcomes, in this period, 28 stakeholders (government and EDPs) informed about UNFPA WP 2022, 309 participants received orientation and became aware of safe motherhood road map, 136 palikas participated in Safe Motherhood Road Map workshop, 29 Health Coordinators from flood affected palikas of Madhesh province participated and received MISP training, 158 elected local representatives oriented on safe motherhood road map, 14 health officials from 7 priority palikas (Gaur, Gujra and Yamunamai in Rautahat, Malangwa, Godaita and Kaudena in Salrahi and Janakpurdham SMC in Dhanusha) attended the RH/FP review workshops through this programme. Finally, 2 palikas initiated the Zero Home Delivery campaign. In addition, 4 annual health review meeting supported, 2 HR support provided to PHLMC, 8 FM stations engaged to broadcast messages on safe motherhood, 20 messages produced and broadcasted on safe motherhood in different language, 7 events supported to mark the National FP Day, and 36 health personnel oriented on forecasting and quantification.

Also, 88 youths participated in the seven steps local level planning process orientation, one event supported to celebrate the International Youth Day. Similarly, a series of events supported to mark International Women’s Day, 16 Days Campaign, and the IDGC. Furthermore, 4 Protection/GBV Network meetings supported in Madhesh Province. Ultimately, 4 Palikas developed gender equality and social inclusion policy. Likewise, 34 persons from OCMC, safe house, protection network members trained on basic humanitarian principles and safe GBV referral during emergencies, 316 FCHVs oriented on GBV, SRHR and harmful practices and survivor centered services, one TA supported to MoWCYS, 7 Palikas supported to celebrate World Population Day, 7 sensitization workshops held on 2021 Population and Housing Census preliminary data use for planning process.

Major Achievements

Indicator wise major achievements of the programme are presented below:

SN	Indicators	Target	Achievement	Remarks
<i>Sexual and reproductive health services</i>				
1	Number of stakeholders (government and EDPs) informed about UNFPA WP 2022	20	28	To orient and inform local-level stakeholders about the Safe Motherhood Roadmap 2030, to advocate for the inclusion of safe motherhood-related activities in their annual work plan and budget as well as to support the goal of the provincial government declaration of a "Completely Safe Motherhood Madhesh Province", LIFE Nepal organized one-day "District Level Safe Motherhood Roadmap Advocacy Workshop" with 309 mayors/deputy mayors, elected representatives, government officials like health coordinators from all 136 Palikas in Madhesh province.
2	Number of participants received orientation and became aware of safe motherhood road map	272	309	
3	Number of palikas participated in Safe Motherhood Road Map workshop	136	136	
4	Number of Health Coordinators from flood affected palikas of Madhesh province participated and received MISP training	30	29	29 health personnel (28 males and 1 female) from flood affected municipalities of Dhanusha and Mahottari districts received a training on MISP. The training enhanced the capacity and raised awareness among the health service providers for the preparation and response of SRH and GBV in emergencies. Provincial Health Training Center (PHTC) led the sessions along with UNFPA provincial staff and CMC.
5	Number of elected local representatives oriented on safe motherhood road map	141	158	One day orientation for the ward executives and health coordinators was held in Gujara and Godaita municipality. The total participants of the event were 158. The event oriented the health officials and ward executives of the palikas to work out for the initiation of the zero-home delivery campaign at the community level by prioritizing the SMN roadmap in their Municipal AWPB, to roll out Safe Motherhood and Newborn Roadmap Policy and support the province government to declare a "completely safe motherhood province".

6	Number of health officials from 7 priority palikas (Gaur, Gujra and Yamunamai in Rautahat, Malangwa, Godaita and Kaudena in Sarlahi and Janakpurdham SMC in Dhanusha) attended the RH/FP review workshops.	14	14	A total of 14 participants (male: 7, female: 7), two each (1 Health Coordinator and 1 Staff Nurse/ANM) from the seven priority municipalities (Janakpur SMC, Malagwa M, Kaudena RM, Godaita M, Gaur M, Yammunamai RM & Gujara M) of UNFPA attended the RH/FP review and planning workshop conducted on 8 and 9 December 2022. The participants from the workshop reviewed the RH/FP services and commodity status of the province and past efforts made on RH/FP services, identified gaps and mitigation measures and way forward for effective service delivery. The event also advocated prioritizing RH/FP services in the annual work plan and budget of municipalities to ensure universal coverage of RH/FP services.
<i>Supply Chain Management policy and strategy development</i>				
7	Number of palikas initiated with Zero Home Delivery campaign	2	2	Capacity building events for FCHVs about zero home delivery program organized in two Palikas i.e., Gujara municipality of Rautahat and Godaita municipality of Sarlahi district. Through events 16 CHVs oriented about the knowledge and counselling skills of ANC, PNC, Institutional Delivery, regularize Mother Group Meetings (MGM) for the effective discussion on RH and FP related matter, and increase home visits of pregnant women to provide needful information's and refer to birthing center for delivery services from zero home delivery campaign perspectives.
8	Number of annual health review meeting supported	4	4	<ul style="list-style-type: none"> - On 31st March 2022, Provincial Health Directorate (PHD) organized a health and nutrition cluster coordination meeting in coordination with Ministry of Social Development and Province Health Logistics Management Center (PHLMC), Province Public Health Laboratory (PPHL), Chief of health office, Mahottari and Dhanusha along with EDPs working in health sector. The meeting was chaired by Mr. Vijay Kumar Jha, Director, PHD. A total of 29 participants were physically present and 5 participated virtually. - On 24 March 2022, Province Health Logistics Management Center (PHLMC) organized a meeting of Provincial Supply Chain Management Technical Working Group in coordination with the Ministry of Social Development (MoSD), Provincial Health Directorate (PHD) and External Development Partners (EDPs) working in the health sector. There

				<p>were 41 participants, among them 5 were females and 36 were males.</p> <p>- Health and nutrition cluster meeting organized on 21 June 2022 at the Provincial Health Directorate with a total of 43 participants. The meeting was chaired by the director of the Provincial Health Directorate. The Program discussed the vaccination update, Monkey pox update and Monsoon preparedness and response plan.</p> <p>- On June 27, PHLMC organized Supply Chain management working group meeting at Royal Mithila Food Palace. The meeting was chaired by the Director of PHLMC and reviewed the previous meeting action points, discussed about stock status and consumption report of Family Planning and MNCH Commodities in district stores, LMIS reporting rate and support in e-LMIS, progress and support of EDPs in PHLMC/PHD, HMIS/LMIS tools, COVID- Vaccine status and regular vaccine report status, and monthly stock status of PHLMC.</p>
9	Number of HR support provided to PHLMC	2	2	Two HR i.e., 1 Pharmacy Officer, and 1 IT Officer supported in PHLMC
10	Number of FM stations engaged to broadcast messages on safe motherhood	8	8	Delivered the PSA through 8 popular radio stations of the province i.e., Saptari – CFM – 97.7 MHz, Siraha – Radio Muskan FM – 96.5 MHz, Dhanusa – Radio Dhanush FM – 99.7 MHz, Mahotari – Max FM – 95 MHz, Sarlahi – Radio Malangwa FM – 95.6 MHz, Rautahat – Kathariya Musical FM – 97.4 MHz, Narayani FM – 103.8 MHz, and Sanskar FM – 95.6 MHz.
11	Number of messages produced and broadcasted on safe motherhood in different language	20	20	To provide people with clear, concrete, and complete messages regarding safe motherhood and the reproductive health services and rights, LIFE Nepal coordinated with the most popular and high-frequency FM radio station in all 8 districts of Madhesh province and created the content in the local language (Nepali, Maithili, Bhojpuri and Bajjika) that was extracted from Safe Motherhood and Reproductive Health Rights Act 2075 in coordination with Provincial Health Directorate.
12	Number of events supported to mark National FP Day	7	7	Technical and financial support was provided to the provincial and local level government to mark and celebrate the National Family Planning Day for a week from 18 September 2022 with the Slogan of "Jojl:yt kl/jf/ xfd[f] clwsf/ M xfdL ;a} lhDd]af/". Events like rally (with 69 people), speech

				competition (with 33 students), provincial level interaction programme (22 stakeholders), and interaction programme with FCHVs (34) were organized in the Province and Six priority palikas of Rautahat (Gaur, Gujra and Yamunamai) and Sarlahi (Malangwa, Godaita and Kaudena).
13	Number of health personnel oriented on forecasting and quantification	36	36	36 health coordinators and deputy coordinators from all the palikas of Dhanusha district attended the two-days district level forecasting and quantification workshop organized at Bardibas from 20-21 September 2022 and were capacitated on the processes and procedures to be followed during quantification, forecasting and procurement of health commodities at municipalities, different methods of forecasting and quantifying health commodities, identify and calculate the required quantity of health commodities according to palikas population and support the municipality authority in the procurement of logistics.
Adolescents and Youth				
14	Number of youths participated in the seven steps local level planning process orientation	75	100	With an aim of encouraging participants to involve in the local level planning process and for their capacity build up, LIFE Nepal in coordination with the National Youth Council, Nepal successfully conducted one day in-person event to youth networks/groups for the result based local level planning in three districts of Madhesh province that is Rautahat, Salrahi and Janakpur dated 24, 25 and 26 May 2022 respectively.
15	Number of events supported to celebrate the International Youth Day	1	1	In coordination with the Ministry of Women, Children, Youth and Sports, UNFPA provided technical and financial support through LIFE Nepal to mark the International Youth Day on 12 August 2022 by conducting 5 major events: a rally, blood donation, candle lighting, youth road safety awareness, and a documentary. The documentary was broadcasted through local TV (TV today, 6:30 pm, 12 August 2022) and youtube as well (https://www.youtube.com/watch?v=hudM6MTp8rI). The theme of the documentary was "k hgg\ :jf:Yosf] ;'lg Zrttf n}+lus lx+;f lgjf/0fdf o'jfsf] e'ldsf"
Gender equality and women's empowerment				
16	Event supported to mark International Women's Day	Yes	Yes	The 112 th International Women's Day with the theme "Gender Equality Today for Sustainable Tomorrow" day was celebrated in the Madhesh Province on 8 th March 2022. Three major activities were carried out by LIFE Nepal i.e., rally, tuk-tuk vehicle mobilization for the megaphone

				announcement and message dissemination, and gender-based violence, gender equity, child marriage and girls trafficking videos show. Altogether, 601 people participated in the rally and the video display program and aware of the rights of women, promote gender equality and to avoid harmful practices to the women. Likewise, 2500 community reached through tuk-tuk mobilization as they informed about the immediate contact numbers for reporting GBV and Domestic violence cases.
17	Event supported to mark 16 Days Campaign	Yes	Yes	Under the leadership of Ministry of Women Children Youth and Sport (MoWCYS), various events were organized to mark the 16 days of activism against GBV. A province level event 'Celebrating Local Heroes Campaign' was organized on 25th November 2022 and an 'Advocacy workshop on inclusive SRHR and discouraging harmful practices including GBV' was organized in Rautahat (Gaur M, Gujura M, Yamunamai RM) and in Sarlahi (Malangwa M, Godaita M, and Kaudena RM) on 6th and 7th December 2022.
18	Event supported to mark the IDGC	Yes	Yes	UNFPA and LIFE Nepal supported MoWCYS to celebrate the International Day of the Girl Child (IDGC) on 11 October 2022 by organizing a drawing competition for adolescent schoolgirls with the theme "अब हाम्रो, पालो, हाम्रो अधिकार, हाम्रो भविष्य". A total of 22 participants, all female representing MoWCYS, students and teacher from four schools of Dhanusha attended the event.
19	Number of Protection/GBV Network Meeting supported in Madhesh Province	4	4	Ministry of Women, Children, Youth and Sports (MoWCYS) as lead agency organized third thematic group meeting of this year on 7 September 2022 with the support of UNFPA (Co lead). 28 (male;16, female; 12) participants participated, representing provincial government, EDPs, I/NGOs. The meeting was chaired by the representative of the MoWCYS, Mrs. Debu Kumari Khatri the under-secretary.
20	Number of palika developed gender equality and social inclusion policy	4	4	LIFE Nepal supported Gujara municipality in Rautahat and Kaudena rural municipality in Sarlahi district to finalize the GESI Policy. The final draft of the GESI policy was submitted to the Gujara and Kaudena on 29 and 30 June 2022 respectively. A total of 33 (male 25 and female 8) participants in Kaudena and 29 (male 19 and female 10) participants in Gujara attended the Policy handover ceremony.

21	Number of persons from OCMC, safe house, protection network members trained on basic humanitarian principles and safe GBV referral during emergencies	30	34	LIFE Nepal organized one day orientation program to the OCMC, safe house and protection network members about humanitarian principle and safe GBV referral mechanism in an emergency on 3 June 2022 at Chapur, Rautahat. 34 participants (23 Male and 11 Female) attended the programme.
22	Number of FCHVs oriented on GBV, SRHR and harmful practices and survivor centered services	300	316	A total of 316 FCHVs (100% female) participated and received an orientation on GBV, SRHR and harmful practices in the six priority palikas of Rautahat and Sarlahi districts. For the first time, the FCHVs participated in the GBV orientation as their main role is to provide health information in the community. The orientation raised awareness on GBV, SRHR, and the harmful practices concept for the FCHVs and anticipated that they will try their best to apply the learning in the community. In addition, mapping exercise carried out of the survivor-centered services available in the palikas for an effective referral mechanism for GBV, SRHR & Harmful practices. It was interesting to observe that almost all the FCHVs expressed that they were not aware about OCMC and its services prior to this orientation.
Health, GBV and child protection systems				
23	Number of TA supported to MoWCYS	1	1	MoWCYS organized three thematic group meetings. The GBV thematic group meeting was held on 8 February 28 th March, and 27 June 2022. The 1 st meeting was virtually conducted with 25 participants (13 females, 12 males). Whereas the second meeting was physically conducted with 45 participants (20 males and 25 females). In the third meeting 28 people attended. The meeting discussed GBV and protection issues of the province.
Population Dynamics				
24	Number of Palikas supported to celebrate World Population Day	7	7	The World Population Day 2022 was celebrated in the Madhesh province by organizing a province level interaction program and inter-school essay competition in 6 priority palikas of UNFPA. The theme was used as the essay topic. Also, the

				<p>province level interaction program was held at Janakpurdham with 40 participants, including government officials, representatives from ministries, and external development partners.</p> <p>Likewise, the essay competition with the theme "cf7 ca{sf] ;+;f/, lbuf] lasf;sf] cfwf/"was organized in 6 priority palikas of UNFPA; Malangwa Municipality, Kaudena Rural Municipality, Godaita Municipality, Gaur Municipality, Yamunamai Rural Municipality, and Gujara Municipality, and 117 people (male female) participated in the competition.</p>
25	Number of sensitization workshop held on 2021 Population and Housing Census preliminary data use for planning process	7	7	<p>The one-day orientation event on the use of 2021 population and housing census preliminary data for evidence-based planning was organized in the seven priority palikas (Malangwa, Kaudena, Godaina, Gurjara, Yamunamai, and Gaur, Janakpurdham) from 11th to 19th December 2022. A total of 221 (Male: 192, Female: 29) representing elected representatives (Mayor, Deputy Mayor, and Executive Member), CAO, section chief of different sections who are responsible for local level planning and budgeting of palikas attended the program.</p>

Good Practice and Learning

- ❖ Mayors/deputy mayors, elected representatives, government officials developed a road map for safe motherhood like to ensure a well-equipped birthing center with skilled and enough manpower, to discourage child marriage practices and promotion of complete ANC and PNC visits as per the government protocol for one day workshop.
- ❖ A provincial health and nutrition cluster coordination/ RH sub-cluster meeting decided Typhoid Vaccination should be 100 %, near expiry Covid Vaccine should be managed soon, indicators should be set for safe motherhood and nutrition that will support provincial government to declare complete safe motherhood province and Malnutrition free province, and material supported by EDPs in hospitals should be managed well.
- ❖ The first meeting of Provincial Supply Chain Management Technical Working Group decided that for Covid -19 Vaccine a letter should be sent to the Ministry of Social Development, data entry system should be properly managed at e-LMIS reporting in relation to reach the national goal (35%) as it was less in Rautahat and Parsa districts. The second meeting decided to train store focal person in all districts so everything about stock management should be done through the e-LMIS system. Similarly, Oxytocin is needed in all birthing centers so to manage temperature IEC material should be managed prepared and available IEC Material from USAID should be pasted in all health office and birthing center. Third meeting decided for conducting focus group discussion of mental health, nutrition group and PHLMC, continuation of the digital family folder activities in four palikas, motivating Covid vaccination low performing palikas and ensuring their progress and sending letter to the palikas for formation and functionality of the emergency medical team to facilitate the vulnerable during flood and emergencies. The fourth meeting quoted that e-LMIS reporting rate was good in the Madhesh Province as compared to other provinces and the main reason behind the good e-LMIS reporting rate is to regular follow up in palikas.
- ❖ At the closing ceremony of the rally when International Women's Day, there was a valuable speech from the member of the Province Planning Commission, Honorable Pramila Singh and the secretary of the Ministry of Women, Children, Youth and Sports Mr, Keshab Prasad Bimali. Hon. Pramila Singh pointed out, "*Gender-based violence is a national issue and the government should formulate plans and choose the best way of implementing them to address the national priority*". Likewise, Mr. Bimali highlighted poor exercise of women's rights in Madhesh Province and emphasized on the need of coordinated actions among all stakeholders to minimize gender inequalities. Alao Mr. Bimali highlighted "*there is no better way out than working in a team with like-minded stakeholders*." This event helped the like-minded stakeholders working in Dhanusha Districts, such as government, non-government, non-profit, and private groups to work in an integrated way.
- ❖ Through the thematic group meeting of MoWCYS a technical team was formed to follow up and update RPM tool. It was decided that GBV thematic group meeting should be organized 2/2 weeks (Virtually) and once in a month (Physically). Similarly, the meeting decided to update the referral mechanism tool as soon as possible and update the GBV control guidelines if needed and finalize it for further processing.
- ❖ Both Palikas (Godaita and Gujara) committed to co-financing the zero-home delivery campaign from next AWPB. The zero-home delivery campaign was kicked off in both wards of the Palikas. However, the newly elected representatives at local level are seeking technical guidance to declare safe motherhood palika.
- ❖ GESI policy was handed over to the Mayor of the Kaudena rural municipalities and to the deputy mayor of the Gujara municipality due to the absence of the mayor in Gujara municipality. They

committed to discuss and pass the policy through municipal assembly after making the executive boards of the palika aware about the policy. However, regular follow up is essential for the endorsement and implementation.

- ❖ Rautahat OCMC committed to funding the similar orientation program to the ward executive members in palika for the effective GBV referral mechanism in the district.
- ❖ The interaction program among local level policy makers, health service providers and community level health advocates helped to bridge the gap between them to strengthen the 5 modern methods of family planning services in the communities. The gathering also helped to identify the unserved population and bring out the status of marginalized communities in terms of FP/RH services, such as single women, poor families, Dalit, Muslims, disability, LGBTIQ. It was suggested that all the health facilities should be equipped and have trained human resources to provide all the 5 modern methods of family planning services. In addition, FCHVs should be supplied with the basic but essential FP commodities, such as pills and condoms, to ensure timely resupply of those in the communities.
- ❖ Third thematic group meeting agreed to prepare a GBV resource person roster in Madhesh province and make it readily available to related agencies and authorities to facilitate further training and orientation sessions, finalize the GBV prevention guideline, which is being drafted by MoWYCS, update about the program to be organized for the children's day and world suicide prevention day and invite for the successful participation from the meeting attendees in the program, and orient the thematic group members about referral process and case management guidelines and the strategic plan against child marriage.
- ❖ In RH/FP review and planning workshop, local level elected representatives in priority palikas agreed to prioritize health, especially RH/FP programs, in the upcoming annual work plan and budget. They also agreed to fulfill the vacant nursing staff positions through Public Service Commission in coordination with provincial authorities and to operationalize and functionalize five modern FP services at least in the birthing centers now onwards and periodically extend to other health facilities as well as establishment of birthing centers in the strategic locations within the palika territory. Some palikas are ready to operationalize BEONC site and have already allocated budget in the current fiscal year and regularize the meeting of the health facility operation and management committee.
- ❖ Two local heroes, local community level youth activists working to end child marriage and GBV (Ms. Kamli Sada and Ms. Kazal Jha) shared their experiences with the diverse group of participants for 16 days campaign.
- ❖ Executive members of local government gained the knowledge on how to use Census data to make informed decisions in evidence based local level planning and budgeting process. The event also advocated at local level with the elected representatives and government officials for the best use of census data while planning activities and implementing policies for informed decision making.

Issues or challenges with mitigation actions

Issues or challenges	Mitigation actions
Management of date and time for Mayor/Deputy Mayor as well as health coordinator due to announcement of local level election date and training of typhoid campaign in different districts and palikas.	LIFE Nepal coordinated with the Provincial Health Directorate, health office of the respective district, local levels, and invited Mayor/Deputy mayor including health coordinator from each local level in coordination with health office.
Audiences were not attracted during the international women's day celebration video display program in the absence of informative videos, drama, songs, even the advertisements because very few organizations working in protection sector in Dhanusha had such materials.	LIFE Nepal will explore with the like-minded organizations in or out of Madhesh province as well in coordination with UNFPA to collect mind catching videos.
Management of daily settlement allowance (DSA) and travel expenses was a challenge as the elected representatives wanted their driver to be paid the transportation expenses as well as transportation claimed by non-targeted participants	LIFE Nepal will coordinate elected representative and properly communicate about the provisions made by the program as well as ensure the actual participation in the program.
Insufficient beds at the birthing center, nursing staffs, lack of zero-home delivery guideline, less priority of local government, ultrasound machine, insufficient staffs at the birthing centers, lack of iron tablets at the health facility, no provision of snacks at the mother's group meeting are restricting zero home delivery campaign.	LIFE coordinated with Palikas and the health facility management committee and discussed the improvement of the birth center's service in relation to meet the target of zero home delivery. Finally, all the seven palikas Janakpur SMC, Malagwa M, Kaudena RM, Godaita M, Gaur M, Yammunamai RM & Gujara signed the declaration with 7 points to strengthen the RH/FP services and make the palikas completely safe motherhood. Gujra, Godaita, Malangwa, Kaudena, Janakpurdham committed to procure ambulance and provide free ambulance services to pregnant women to strengthen the referral mechanism. Also, Godaita Municipality is initiating "Hello Sister" app very soon to contact and encourage pregnant women to seek RH services as per the protocol.
Safe referral mechanism is most of the time a challenging task due to the delay processing at the hospital and weak economic condition of the vulnerable. Also, vulnerable approaching to OCMCs and WCSCs after weeks of the incidents such as rape, and domestic violence's also hampered the easy and safe GBV referral mechanisms.	LIFE Nepal will coordinate with OCMC and WCSC for the easy and safe GVB referral mechanism.
Due to the Covid and lock down the family planning program was not held effectively. Also, there was a lack of refreshment facility in Mothers health group meeting, which makes the meeting less attractive for mothers to attend.	LIFE coordinated with Palikas and the health facility management committee and discussed the improvement of family planning services.

<p>Lack of regular FP commodities supply to FCHVs, like pills, condoms to be distributed in the communities. In addition, HMIS 4.2 FCHV service register is not available to the FCHVs in a timely manner. There was a lack of skilled and trained health personnel on long-acting family planning methods in the health facilities. Similarly, lack of mass awareness raising campaigns about family planning in the marginalized communities and low number of health facilities providing all the 5 modern methods of family planning.</p>	
<p>SRH issues of youths like lack of sexual and reproductive health education in the schools and the community, lack of quality based sexual and reproductive health services, early marriage, early pregnancy, and unfulfilled family planning needs and services are exiting.</p>	<p>LIFE Nepal will coordinate with local governments and discuss about comprehensive sexuality education to the people of reproductive age who have no access to schools and colleges, ensure participation of youths in the activities conducted by Ministry through awareness program, and human Right based approach and living no one behind approach should be practiced by the concerned stakeholders to minimize the SRH and GBV issues.</p>
